10 000€ to be earned for writing a review on Angular Speed Sensors

PRESANS has launched a new worldwide **Call for Expertise**: we are currently seeking an expert who will scan and analyze alternative designs for angular velocity sensors.

If you are interested, please register on presans.com. If you are selected, you will be paid 10 000€ to write a review on new developments on angular speed sensors.

Innovation in France : the view from Austria

According to the Austrian economist Karl Aiginger, the performance of the French innovation system are not good for reasons that lie beyond innovation and that should not be separated from the broader French socio-economic context.
